

# Fun, Life, Energy, and Memories

# Memorable Experiences

Everyone remembers Firsts.

- First love
- First cruise

Carnival's SkyRide, a first step to sustainable mobility

- Life requires energy.
- Transportation as the catalyst for changing energy systems.
- SkyRide imparts a feeling we can self-power our world.
- Adding automation imparts a feeling we can power cities our cities within a solar budget.

# Transport is the Catalyst

Transportation is the catalyst for changing energy systems.

Carnival is leading with SkyRide and natural gas ship concepts.

# Life within a Solar Budget

Thomas Edison, 1910:

*"Sunshine is spread out thin and so is electricity. Perhaps they are the same, Sunshine is a form of energy, and the winds and the tides are manifestations of energy."*

*"Do we use them? Oh, no! We burn up wood and coal, as renters burn up the front fence for fuel. We live like squatters, not as if we owned the property."*

*"There must surely come a time when heat and power will be stored in unlimited quantities in every community, all gathered by natural forces. Electricity ought to be as cheap as oxygen...."*

# JPods, Urban Mobility within a Solar Budget

# Concept

From Oil to Ingenuity

# Carnival: Combine SkyRide/JPods

Benefits, combine JPods robotics with SkyRide:

- First in sustainability
- Increase throughput
- Self-rescue
- Fun

# Connect Airports to Harbors

Extend the adventure from airports to ships
